# AnyChart Joins Qlik Technology Program

*Direct integration makes it easy for business users to generate stunning new visualizations natively in Qlik*

**May 7, 2019**

**St. Augustine, FL:** [AnyChart](#)'s award winning visualization library is now available as a packaged Extension in Qlik. Qlik Customers will now have more data visualizations than ever before with 36 new chart types. AnyChart has built charting libraries for over 15 years, and recently released 3 Extensions to work natively in the Qlik environment; they are AnyChart, AnyGantt, and AnyStock.

Overall, AnyChart has already delivered **36 of over 70 chart types** to Qlik Sense:
- AnyChart extension features Sankey, Heatmap, Pyramid, Funnel, Mekko, Mosaic, Radar, Quadrant, Tag Cloud, and numerous other charts referred to as basic — for a wide range of data analytics tasks.
- AnyGantt brings Gantt charts and Resource charts — for data-driven project and resource management.
- AnyStock adds unique time series charts for insightful analysis of financial and stock market data as well as any other timeline-based data.

"*We're excited to be partnering with AnyChart, and their extensions will provide customers with additional choices for building even more compelling visualizations*," said **Mike Foster**, Vice President, Strategic Partners at **Qlik**.

"*By partnering with Qlik, and their powerful ecosystem, we are able to expand our user base beyond developers. Our visualization library will provide new chart types to the Qlik community allowing business users to create stunning new charts natively inside their Qlik environment,*" said **Mark Peters**, Vice President, Sales at **AnyChart.**

AnyChart's advanced charting extensions for Qlik Sense are available to [download](#) and come with a 30-day free trial. With multiple licensing options available AnyChart can scale to meet the requirements of any organization.

To learn more about the AnyChart Extension stop by booth 132 at [Qonnections](#) May 13-16 in Dallas, TX.
